

Thermotec 2022 concludes on a high note

Thermotec, the largest and the only exhibition in the field of industrial furnaces and related technology in Japan, was held from 1—3 June, 2022 at the Tokyo Big Sight.

Since its launch in 1993, the show has established its reputation as an indispensable business platform for manufacturers, suppliers, users and researchers.

The eight edition of Thermotec welcomed 175* exhibitors from seven countries and regions and welcome 9,121* trade visitors.

With strong reputation featuring to not only a wide array of exhibits but also its fringe programme such as seminars led by industry leaders and the popular exhibitor presentations, Thermotec 2022 was once again an active communication platform where knowledge, technology and business to come together.

Held every four years, Asia's most influential exhibition "Thermotec" was originally scheduled to be held in 2021. However, due to the postponement of the Olympic and Paralympic Games Tokyo 2020 by one year, the fair was held in June this year.

The next Thermotec will be held in 2026.

* Numbers of visitors and exhibitors are preliminary figures, subject to change.
